

Málaga, April 2nd 2012

Dear colleagues and friends:

We want to thank you for your participation in the Knowledge Transfer Center of Methodology and Best Practices in Strategic Planning in the Mediterranean (Malaga KTC) Launch Seminar held in Malaga on 22th and 23th March. Thanks to your contributions and interest has been completed successfully.

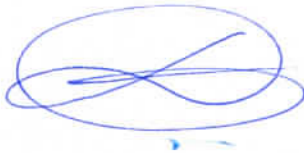

We have had representatives from Turkey, Lebanon, Morocco, Barcelona, Jaen, and of course, Malaga. Thanks to the contributions of all of them we could define the main lines of work to be carried out in KTC-Malaga in the next years about methodologies transfer, projects and knowledge of good practices developed in other Mediterranean cities.

All presentations, exhibitions and interventions are reflected in the various documents which are available on our website: [www.ciedes.es](http://www.ciedes.es).

We hope that this first meeting will serve as a starting point for creating a network of experts and interested persons who, through the platform, can share their opinions, experiences and knowledge on these subjects; that is why we invite you to continue to enrich KTC with your contributions.

We reiterate our gratitude for your presence at this seminar and our city, and are available for any observation or suggestions.

Sincerely,

Mª del Carmen García Peña  
Managing Director  
CIEDES Foundation

KTC Málaga
